

Pathfinder™ 3

Survival Craft Radar Transponder for Search and Rescue Operations

Product No.: 2714

Enhances radar returns with 12 intense blips where the first blip represents the SART

Unit transmits through the 9.2-9.5 GHz marine band radar when interrogated by radar

Operation life: 96 hours in stand-by mode; in excess of 8 hours in operational mode

Vessel mounting bracket and collapsible pole included

Three unique testing options with visual and audible feedback

Built-in test mode: self test the unit, moving a switch

Practical testing: test the unit at least 40 ft from a radar antenna, see response on screen

Companion test: test the SART with another unit. For testing multiple SARTs.

Product Specifications

Size:	12.5 x 3 in (31.8 x 7.6 cm) easily packs into life raft
Weight:	1.5 lbs (24 oz) (680 g)
Material:	High impact polystyrene
Color:	Hi-Viz Yellow
Deployment:	Manual
Operation:	Turn switch ring to the left into the test position. Remove safety tab, guide the switch ring to the right and into the "ON" position
Battery:	Lithium (5 year replacement life)
Waterproof:	Up to 10 meters (33 ft)
Certification:	FCC and MED approved
Limited Warranty:	1 year
Carton Dimensions:	15.5 x 6.0 x 4.5 in
Units Per Carton:	1
Carton Weight:	2.40 lbs (38.4 oz) (1.08 kg)
